Active TS/SCI FSP Clearance

Professional Summary

TS/SCI-cleared full-stack engineer building secure systems for DoD Intelligence Community targeting platforms. Specializes in Java/Spring Boot REST APIs, Angular 21+, and DevSecOps delivery across classified and unclassified environments.

Employment

Modus Operandi, Norfolk, VA / Hybrid

Full-stack Software Engineer — June 2025 to Present

- Cut estimated source-citation review time for analysts from weeks to a few hours by designing and shipping dynamic citation management, classification roll-up logic, and fine-grained access controls in Spring Boot REST APIs and Angular frontend features.
- Delivered backend module overhaul from design through production as primary engineer, sustaining delivery across 14 sprints in an agile release cycle.
- Ensured secure, portable delivery of 8 containerized services across 4 classified and unclassified environments by applying DevSecOps practices to CI/CD pipelines.
- Leading migration of production mission-critical application's frontend from React to Angular 21, rebuilding 20+ core analyst-facing views to consolidate codebases and decrease technical debt.

GDIT & GCI, inc., Chantilly, VA

Software Engineer Intern — May 2023 - Aug 2023 | May 2024 - Aug 2024

- Cut container scan turnaround time by prototyping an autoscaling, automated container-scanning pipeline using AWS, Terraform, Kubernetes, Docker, and Python
- Aligned engineering stakeholders by authoring technical documentation and presenting the prototype to team stakeholders.
- Improved employee onboarding time by creating an automated internal tool to replace email workflows.

Skills

Languages: Java**,** Python, TypeScript, C++
Backend: Spring Boot**,** Rest APIs, OAuth
Cloud/DevSecOps: Docker, Kubernetes, AWS, AWS GovCloud, Platform One
Databases: PostgreSQL, MySQL, RDF4J
Frontend: Angular 21, React
Methodologies: Agile, TDD, REST API, Microservices

Certifications

- *CompTIA* **Security+ CE**

Education

Christopher Newport University, Newport News, VA

B.S., Computer Science (Major), Information Science (Minor) — May 2025 - GPA: 3.95
